Report Listing

This section covers the following topics:

- Report Listing Maintenance
- Report Listing Retrieval

Report Listing Maintenance

The Report Listing Maintenance Menu is called with the command
MAINTAIN REPORTLISTING.

Overview of Functions and Commands

Function	Code	Command
Modify Report listing	M	MODIFY REPORTLISTING
Rename Report listing	N	RENAME REPORTLISTING
Purge Report listing	P	PURGE REPORTLISTING
Display Report listing	D	DISPLAY REPORTLISTING
Link children	L	LINK REPORTLISTING <active-association-type>
Edit owners of a Report listing	O	EDIT REPORTLISTING OWNER
Select Report listing from a list	S	SELECT REPORTLISTING

Parameters

Keyword	Field	Position
ID	Report listing ID	1
<>	Copy ID	2

Report Listing-specific Maintenance Commands

Report listing objects are processed using Standard Maintenance Commands.

Note:
Report listings are added automatically by Coordinator and Conversion functions. It is not possible to add report listings manually. For this reason, commands ADD and COPY are not available.

See also **Mass Delete of Report Listings** in **Special Functions** in the Predict Administration documentation. This function deletes multiple report listings in one operation.

Report Listing Retrieval

The Report Listing Retrieval Menu is called with the command RETRIEVE REPORTLISTING.

Overview of Functions and Commands

Retrieval Type	Code	Default Output Mode	Command
Report listings	D	D	DISPLAY REPORTLISTING
		L	LIST REPORTLISTING
		S	SELECT REPORTLISTING
		D	SHOW
Execute retrieval models	E	T	EXECMODEL REPORTLISTING
Dummy/Placeholder Report listing	C	L	DUMMY REPORTLISTING <passive-association-type>
Report listing with parents	B	D	PARENTS REPORTLISTING <passive-association-type>
Report listing with no parent	O	L	FREE REPORTLISTING ANY | ALL | <passive-association-type>
Report listing with children	T	D	CHILDREN REPORTLISTING <active-association-type>
Report listing with no child	U	L	EMPTY REPORTLISTING ANY | ALL | <active-association-type>

Parameters

Keyword	Field	Position
ID	Report listing ID	1
RES	Restrictions	2
OUT	Output options	3
MODEL	Model	4
MODE	Output mode	5

Report Listing-specific Retrieval Commands

Report listing objects are processed with Standard Retrieval Commands.
